📍 Ghaziabad, Uttar Pradesh, India

Professional Summary

Android Developer with 2+ years of experience delivering production-grade mobile applications in Kotlin and Java for data structures. Spearheaded technical events with 1,000+ participants across Apple COE (Vice President), MLSA (Android Lead), and GDG (Android Coordinator & Event Manager). Proficient in AI integration, real-time systems, Firebase, and MVVM architecture, consistently shipping scalable, user-centric Android solutions.

Education

KIET Group of Institutions - AKTU

Bachelor of Technology in Computer Science & Engineering | **81.72%**

Oct 2023 – June 2027

Ghaziabad, India

Kendriya Vidyalaya No.1 Armapur

Senior Secondary School (Class 12th) | **77.2%**

2021 – 2022

Kanpur, India

Featured Projects

The Final Transfer - Digital data securement along with Legacy Management

Feb 2026 – Present

- Developed a digital legacy management Android app using Kotlin, Jetpack Compose, Firebase and MVVM architecture for secure asset inheritance.
- Implemented biometric authentication, real-time inactivity heartbeat monitoring, automated nominee notification system, and cloud-based user data management via Firebase Realtime Database.

DishDash - Food Delivery Platform

Apr 2024

- Architected dual-interface(user and admin) food ordering system with real-time order tracking and instant push notifications via Firebase Cloud Messaging
- Developed using Kotlin, XML, Firebase, Retrofit, Glide

Park-Kar - Smart Parking Solution | *Kotlin, REST APIs, Retrofit*

Apr 2025

- Finding parking is hard. Park-Kar solves this with instant booking of trusted spaces and effortless management for providers — fast, safe, reliable.
- Implemented by using Kotlin, XML, Google Maps API, Firebase.

Android Utilities Apps | *Kotlin, Room Database, Coroutines, Jetpack Compose, XML, etc.*

2023

- Built 6 utility apps: Music Player App(SpoWi), WhatsApp clone(Jetpack), Compass, To-Do, Unit Converter, Expense Tracker, Video player application(Dual interface - admin and user) achieved real time insight of android application how application works.

Technical Skills

Languages - Java, Kotlin, Python, C, SQL

Android Development - Jetpack Compose, XML, MVVM Architecture, Room Database, LiveData, ViewModel, Coroutines, Retrofit, Material Design, Fragments, Navigation Component, Data Binding

Tools - Android Studio, Git/GitHub, Firebase (Authentication, Realtime Database), Supabase, Linux, VS Code, IntelliJ

Frameworks & Libraries - Spring Boot, Spring Framework, REST APIs, Json, Glide

Roles & Positions

- Apple COE - Vice President
- Microsoft Learn Student Ambassador (MLSA) - Android Lead
- Google Developer Group (GDG) on Campus KIET - Android Coordinator & Event Manager

Achievements & Certifications

Achievements :

- Top 100 out of 950+ teams in Graphethon 3.0, Google Solution Challenge badge, Organized multiple hackathons and coding events as a sponsor team lead.
- Avid chess player with an all-time high rating of 1684.

Certifications :

- Introduction to Natural Language Processing | Computer Vision 101 | Introduction to Data Science | Introduction to Artificial Intelligence.
